

Data Center

ASSESSMENT AND EVALUATION FOR AN IMPROVED COMMUNITY

Did you know that Data Center services are available in the community?

Data Center services include:

- Data collection
 - Surveys and questionnaires
 - Focus groups
 - Key opinion leader surveys
 - Community forums
- Data analysis
- Identification of data sources
- GIS mapping
- Literature review and white papers
- Community needs assessments
- Health risk assessments (for employers)
- Presentations of data
- Program, project and grant evaluation and research
- Health impact assessments (built environment, transportation, policy)
- Prioritization processes/decision making

Data Center staff also provide:

Consultation on:

- Program planning and development
- Management of health and community-based data sets
- Human subjects policies and procedures
- Organizational performance management
 - Performance measurement and systems for data-driven decision making
 - Quality improvement - methods, tools and projects

Training on:

- Assessment processes
- Quality improvement methods and tools
- Performance measurement
- Communicating with data
- Logic models and program evaluation

Provision of Data Center services is dependent upon staff availability and may be subject to a fee, per fee schedule approved by Spokane Regional Health District's Board of Health. Call (509) 323-2853 or contact a staff member directly for details and to discuss needs.

These recent Data Center documents are available on the SRHD web site:
