INCOME

Median Household Income Estimates Spokane County

	Year	Income
Census	1999	\$37,308
	2000	\$39,926
Estimate	2001	\$40,156
	2002	\$40,569
	2003	\$42,181
	2004	\$44,483
	2005	\$43,867
	2006	\$44,745
Preliminary Estimate	2007*	\$44,979
Projection	2008**	\$45,552

Source: Washington State Office of Financial Management, Oct. 2008

Note: 1999 median income values are derived from the 2000 U.S. Census of Population and Housing, respectively. Estimates of median household money income for the inter- and post-census years are based on the Bureau of Economic Analysis (BEA) per capita income data and the estimates of household characteristics, at the county level.

*Preliminary estimates for 2007 are based on the payroll data compiled by the state Employment Security Department and the state personal income data published by BEA.

** Projection for the year 2008 is based on the Revenue Forecast Council's September 2008 forecast of the state personal income.

Money income, as defined by the Bureau of the Census, includes wage or salary income, self-employment income, interest, dividend, rental income, social security, or other public assistance income, retirement, and disability income, etc. It excludes some of the income components of personal income defined by the BEA. For example, employer-paid pension and medical benefits are included in personal income but not in money income. The median measures the point at which half of all households have more income and half have less.

HOMELESS

Homeless Population City of Spokane

Count/percent of the total population

Years	Count	Percent
2001	8,817	4.5%
2003	8,416	4.3%
2004	7,294	3.7%
2005	6,024	3.0%
2006	6,188	3.1%

Source: City of Spokane, Human Services Department and the Spokane Homeless Coalition

Note: Data not available for 2002. Data only reflects information for the City of Spokane.

Department of Housing and Urban Development (HUD) defines **homelessness** as: when a person resides in places not meant for human habitation, such as cars, parks, sidewalks, and abandoned buildings; or in an emergency shelter; or in transitional or supportive housing (for homeless persons who originally came from the streets or emergency shelter).

The number of people identified as homeless are individuals identified as seeking or receiving services, within the City of Spokane, from homeless providers. The number of homeless people (N=6,188) for the City of Spokane in 2006 constitutes a total of 4,547 homeless households.

Source: U.S. Census Bureau, American Community Survey

Note: Data are limited to the household population and exclude those living in institutions, college dormitories, and other group quarters.

*The table above shows the margin of error, represented by the lower and upper bounds of the 90-percent confidence interval. The confidence interval represents the degree of uncertainty for an estimate and can be interpreted roughly as providing 90 percent certainty that the true number falls between the upper and lower bounds. The smaller the confidence interval the more precise the estimate.

Note: Two types of householders are distinguished: a family householder and a nonfamily householder. A family householder is a householder living with one or more people related to him or her by birth, marriage, or adoption. The householder and all people in the household related to him are family members. A nonfamily householder is a householder living alone or with nonrelatives only. Family households are further classified by type according to the sex of the householder and the presence of relatives. Examples include: married-couple family; male householder, no wife present; and female householder, no husband present.

COST OF BASIC NEEDS

Cost per Month for Basic Needs for a Family of Four Spokane County

	2004	2006	2008
Food	\$587	\$606	\$697
Housing	\$541	\$580	\$618
Utilities	\$116	\$123	\$130
Transportation	\$209	\$248	\$292
Childcare	\$889	\$823	\$855
Healthcare	\$105	\$136	\$146
Personal and household expenses	\$245	\$252	\$274
TOTAL	\$2,692	\$2,768	\$3,012

The Spokane Regional Health District (SRHD) publication *Facing Spokane Poverty (2002)* details an approach of measuring poverty by examining the cost of basic needs in our community. Because poverty remains a concern in our community, SRHD has updated the cost of basic needs information. The same methodology and sources of information were used as those detailed in *Facing Spokane Poverty (2002)*. The cost of basic needs is based on a family of four consisting of two parents between 20 to 50 years of age and two children, one 3 to 5 years of age and one 6 to 8 years of age. The total basic needs costs equate to 170% of the Federal Poverty Level (FPL) for a household of four in 2008.

Cost per Month by Age for a Low-cost Food Budget Spokane County

	2004	2006	2008		
Child	1 year	\$96.10	\$98.40	\$116.30	
	2 years	\$94.80	\$97.30	\$117.90	
	3-5 years	\$104.60	\$107.00	\$123.70	
	6-8 years	\$139.80	\$144.80	\$166.40	
	9-11 years	\$157.70	\$163.30	\$188.20	
Male	12-14 years	\$178.20	\$184.70	12-13 years	\$212.10
	15-19 years	\$183.00	\$191.10	14-18 years	\$219.40
	20-50 years	\$183.00	\$189.70	19-50 years	\$216.90
	51+ years	\$173.80	\$179.90	51-70 years	\$206.30
				70+ years	\$204.10
Female	12-19 years	\$153.50	\$159.30	12-13 years	\$185.60
	20-50 years	\$159.20	\$164.80	14-18 years	\$186.10
	51+ years	\$154.70	\$160.00	15-90 years	\$189.60
				51-70 years	\$184.80
			70+ years	\$183.70	
Family of 4*	2 and 3-5 years	\$558.80			
	6-8 and 9-11 years	\$662.70			

Food costs are estimated by the U.S. Department of Agriculture and are available by age group and four food plans (www.cnpp.usda.gov). This analysis used the low-cost food plan as a sustainable measure of basic food needs and assumed that all meals and snacks were purchased at a store and prepared at home.

Utility costs were a combination of energy and telephone services. Telephone service was based on the basic plan with no additional amenities. According to Qwest, basic telephone service in Spokane for 2008 was \$20 per month. Energy costs were updated using a cost of living calculator from the American Institute for Economic Research (www.aier.org). The cost of living change increased energy costs to \$110.

Housing cost was based on a two-bedroom apartment in Spokane County. According to Spokane/Kootenai Real Estate Research Committee, Spokane County Apartment Market, the average rent rate for a two-bedroom apartment in Spokane County was \$618 in 2008.

Source: United States Department of Agriculture, Center for Nutrition Policy and Promotion.
*In this table, a family of 4 consists of a couple 20-50 years and two children aged either 2 and 3-5 years or 6-8 and 9-11 years.

COST OF BASIC NEEDS

Cost per Month for Basic Transportation

Spokane County	2004	2006	2008
Adult bus pass	\$33	\$33	\$33
Children's bus pass	\$26	\$26	\$26
Liability insurance	\$60	\$73	\$75
Gasoline	\$60	\$81	\$123
Maintenance	\$30	\$35	\$35
TOTAL COST	\$209	\$248	\$292

Transportation costs were based on a family having one older car and using public transportation. An assumption was made that there was no car payment. Only one child bus pass was accounted for since children five years and younger ride free. The cost of gas was calculated for driving 20 miles per day at 20 miles per gallon at \$1.97 per gallon for gasoline in 2004, \$2.71 per gallon for gasoline in 2006, and \$4.04 per gallon for gasoline in June 2008*. The cost for insurance was based on only having liability for a 1992 car. A minimal amount of maintenance was also allotted.

		TOTAL \$865	TOTAL \$758

Source: Washington State Child Care Resource and Referral Network

Child care cost was evaluated by the Washington State Child Care Resource and Referral Network. The information reported for Spokane County for child care cost identifies two children (one pre-school child 2 ½ to 5 years of age and one school age child >6 years of age), in a family of four. The cost for child care refers to the median rates for a network center. The median rate is that rate at which half of the providers charge the same or higher and the other half charge the same or lower.

Note: School age rates do not include kindergarten. Also, they indicate the rates for school-age children during the school year and, for providers who use an hourly rate, are based on a 20-hour a week schedule. The rates for school-age children during the summer are approximately the same as for pre-school children. In addition, while some providers give discounts when caring for two or more children from the same family, these are not included in the calculations.

Health Insurance was evaluated and calculated expecting a family of four (two adults, two children) to live at 165% of Federal Poverty Level (FPL) with no health insurance offered by their employer. At this level of income, the children would be eligible for Medicaid and the two adults would qualify for Washington State's Basic Health program. The cost for Basic Health in Spokane County for a family of four living at 165% FPL was \$69 per adult per month (19 to 39 years of age). Basic Health had co-pays of \$15 for outpatient visits, \$10 for prescriptions, \$15 for urgent care visits, and \$100 for an emergency visit. There is no co-pay for preventive care. Basic Health covers other services at 80% of charges, after a \$150 deductible, with \$1,500 maximum annual out-of-pocket expense. Basic needs expenses for healthcare is calculated for insurance premiums, plus two out-patient visits per person and two prescriptions per person.

Personal and household expenses were calculated as 10% of the cost per month for basic needs for a family of four in Spokane County.

DISABILITY

Disability Status of the Civilian Non-institutionalized Population Spokane County

		Population ≥ 5 years	Count with disability	% with disability
2002	Estimate	382,345	71,894	18.8%

<hr/>			
Race	White		2.52 (1.21 - 3.84)
	Non-White		2.51 (0.89 - 4.13)

Overall perception of quality of life is derived from assessing 30 contributing factors. These factors were assessed on a five-point scale with “1” representing “not a problem” and “5” representing “a very serious problem.” A higher overall score means respondents perceived more factors as problematic in their community. From 2000 to 2005, there was a significant change in the overall perception with more people rating factors as problematic (1.8 in 2000 and 2.5 in 2005). In 2005, overall perception of quality of life was rated poorer among females when compared to males and among those living at or below 100% Federal Poverty Level (FPL) when compared to those in a higher income category.

Note: National and Washington state data not available. *4 yrs college, graduate/5+ yrs college combined.

	Non-White		3.86 (3.41 - 4.32)

Sense of security and safety is a composite measure of the answers to questions about community safety and cohesiveness. These answers were rated on a five-point scale with a higher score representing a stronger sense of safety or cohesiveness. From 2000 to 2005, there was a significant increase in this indicator from 3.5 to 3.7. Differences were also noted in 2005 by age group and poverty level. The highest sense of security and safety was seen among individuals 65 years of age or older and among individuals living above 200% Federal Poverty Level (FPL) when compared to lower income categories.

Note: National and Washington state data not available. *4 yrs college, graduate/5+ yrs college combined.
